

PRIYANKA L

Aspiring AI / Machine Learning Engineer

Mysore, India | priyalakshman0814@gmail.com | +91 6364254886 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI/ML Engineer with an MCA background and hands-on experience building machine learning, computer vision, and mobile applications. Experienced in training and experimenting with deep learning models using PyTorch, and optimizing them with ONNX and TensorFlow Lite for real-time, on-device inference in Flutter applications. I enjoy working across the full development process, from understanding requirements and building the AI/ML component to integrating it into backend and frontend applications.

TECHNICAL SKILLS

- **AI/ML:** PyTorch (model training/experimentation via Jupyter/Collab notebooks), YOLO, Computer Vision fundamentals, ONNX, TensorFlow Lite (model quantization), Agentic AI concepts (AI agent orchestration, GenAI application design)
- **Mobile Development:** Flutter, integrating trained ML models into mobile applications
- **Data & Backend:** SQLite, Firebase
- **Development Tools:** Docker, Git/GitHub, Voiceflow (chat agent design)

PROJECTS

SOFT FLOWER — AI-Powered Skincare Customer Guidance Agent

Qwen3-4B · QLoRA · Python · Node.js · Express · JavaScript · Render

- Built a domain-specific AI agent for skincare product recommendations, ingredients, routines, pricing, and customer support.
- Fine-tuned Qwen3-4B with QLoRA on a custom skincare dataset for domain-specific interactions.
- Developed knowledge-grounded guardrails to prevent hallucinations, unsupported product claims, medical advice, and off-topic responses.
- Deployed the agent using Node.js/Express and Render, with a GitHub Pages frontend.

- LIVE DEMO: [WEBSITE](#)

Real-Time Traffic Sign Detection — MCA Project

July 2026

- Designed and implemented an offline Flutter application integrating a YOLO-based computer vision model for real-time traffic sign detection on Android, built to run fully without network connectivity.
- Trained and experimented with the detection model using PyTorch in a notebook environment, then converted and optimized it with ONNX and TensorFlow Lite quantization to reduce model size and inference latency for on-device deployment.
- Connected the optimized model to the Flutter frontend, handling the pipeline from camera input through inference to on-screen detection output.

Neurodegenerative Disease Prediction — BCA Project

Feb 2024 – Jun 2024

- Designed and built a Convolutional Neural Network (CNN) pipeline to classify Parkinson's disease indicators from image data, covering preprocessing, model training, and performance evaluation end-to-end.

EXPERIENCE

Business Development Intern — [Win Research Centre](#)

Jan 2024 – Feb 2024

- Delivered software pitches to prospective clients, translating technical product features into clear, non-technical value propositions.

- Contributed to social media content creation supporting brand promotion and outreach, gaining early exposure to how technical products are positioned for real users.

Ignite AI Labs (India)

21 August 2026

- Internship focused on supporting a production fitness and health coaching application, including issue resolution, application reliability improvements, and contributing to ongoing product development.
- Reviewed an existing spreadsheet-based workflow, identified process limitations, and restructured it to improve usability and data consistency for the team using it.

EDUCATION

University of Mysore — Master of Computer Applications (MCA) 2024 – 2026
CGPA: 9.7 | Coursework: C++, Python, Digital Image Processing, Network Security, CNNs, AI/ML fundamentals

SBRR Mahajana First Grade College — Bachelor of Computer Applications (BCA) 2021 – 2024
CGPA: 9.5

CERTIFICATIONS

- Computer Vision 101 — Infosys SpringBoard
- Agentic AI for Developers: Concepts and Applications for Enterprise GenAI Models — LinkedIn Learning
- AI Orchestration: Foundations — LinkedIn Learning

ACHIEVEMENTS

- Gold Medalist, BCA — SBRR Mahajana First Grade College (Jul 2023)
- Best Outgoing Student, BCA — SBRR Mahajana First Grade College (Mar 2026)

LANGUAGES

Kannada, English
